PROFILE SUMMARY

Motivated React Developer with a strong foundation in Computer Science Engineering (Honours) and hands-on experience in building responsive, interactive web applications. Proficient in React.js, JavaScript, HTML, CSS, Bootstrap, and REST API integration. Skilled in developing reusable components, creating user-friendly interfaces, and delivering efficient frontend solutions. Passionate about modern web technologies, continuous learning, and building impactful digital experiences.

PROFESSIONAL EXPERIENCE

Imperial Info System - *Full Stack Developer* 08/2026 – Present
Chennai

- Developed responsive web applications using React.js and modern frontend technologies with a focus on user experience.
- Implemented REST API integrations and functional features, contributing to efficient application performance.

Agile Infotech - *Python Full Stack Intern* 06/2025 – 07/2025
Kerala

- Built three Python-based applications and integrated data storage using MongoDB.
- Integrated frontend and backend functionalities to enable seamless data exchange and application functionality.

Ak Info Park - *Full Stack Web Development Intern* 02/2025 – 02/2025
Kanyakumari

- Developed five responsive webpages using HTML, CSS, and JavaScript.
- Integrated frontend and backend functionalities, improving data flow efficiency and reducing API response issues by 15%.

Srishti Innovative Computer Systems - *Python and Data Analysis Intern* 02/2024 – 03/2024
Kerala

- Processed and cleaned three datasets using Python for data analysis and reporting.
- Created interactive charts and reports using Python libraries to visualize project insights and trends.

EDUCATION

Ponjesly College of Engineering */B.E. Computer Science Engineering* / CGPA: 8.51 Kanyakumari, Tamil Nadu

St. Joseph's Convent HSS / *HSC Computer Science* /Percentage: 73.17%

St. Joseph's Convent HSS / *SSLC* /Percentage: 74.6%

TECHNICAL SKILL

Programming Languages Java, JavaScript, TypeScript

frontend Technologies HTML, CSS, Bootstrap, React Bootstrap

Backend Technologies Core Java, OOPs, Spring Boot, REST APIs

Libraries & Frameworks Nest.js, jquery, React

Databases MySQL, Mongo DB

Tools & Platforms VS Code, GitHub, Eclipse IDE, Postman, Git

SOFT SKILL

- Quick Learning Ability
- Leadership
- Presentation Skills
- Problem-Solving
- Team Collaboration
- Debugging and Troubleshooting Skills

PROJECTS

Mydoo – An Education Discovery Website [React.js, TypeScript, REST APIs]

- Developed and maintained a school discovery platform with responsive UI components and REST API integration.
- Implemented school profile management, admission details, and location-based search functionality.

House of Greens – Business Website [React.js, React Bootstrap, JavaScript]

- Developed a responsive business website using React.js and React Bootstrap.
- Integrated WhatsApp functionality to enable direct customer communication and enquiries.

Real-Time Traffic Forecasting and Congestion Control Using Machine Learning in Urban Environments [Python, Flask, XGBoost, OpenCV, YOLO, HTML, Bootstrap]

- Developed an intelligent traffic management system for real-time congestion prediction and analysis.
- Designed a dynamic signal control mechanism to optimize traffic flow based on predicted traffic conditions.

Underwater Object Recognition System [Python, OpenCV, NumPy, Image Processing]

- Designed a computer-vision model to detect and highlight underwater objects using color-based segmentation in the HSV space.
- Processed 500+ underwater images and achieved 92% detection accuracy by optimizing HSV thresholds.
